## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant argued the distinctions between the present invention and the cited prior art in the telephone interview held on March 24<sup>th</sup> 2005, the details of which are included in the interview summary filed April 4<sup>th</sup>, 2005.

Applicant has amended independent claims 1 and 4 to further distinguish the present invention from the cited prior art.

With regard to claim 1, the reference of Kieu discloses a video processing apparatus configured to select an appropriate filter aperture in accordance with a detected slope and Meno discloses taking weighted contributions in a filter aperture that sum to unity over a line and to zero on each side of said line, but does not disclose that every filter aperture contains these characteristics. Further as applicant pointed out in the interview, the references of Kieu and Meno don't provide satisfactory motivation for combination since they are used with different intentions. None of the found prior art teaches or fairly suggests a set of filter apertures to be used in the manner of the present invention.

With regard to claim 4, the reference of Kieu discloses a video processing apparatus configured to select an appropriate filter aperture in accordance with a detected slope, but does not disclose wherein a positive filter aperture is used for every slope detected above a threshold a negative filter aperture is used for all slopes less than a threshold and a linear filter aperture is used for all slopes found between the two thresholds. None of the found prior art teaches or fairly suggests such an operation.

Therefore the subsequent dependent claims of independent claims 1 and 4 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
